**COMMITTEE MEETING ANNOUNCEMENT**

The following committee meeting was announced:

Ways and Means, 1:45 p.m. today, 3W.9, for a formal meeting, to consider **HJR 24**.

**MAJOR STATE CALENDAR  
SENATE BILLS  
SECOND READING**

The following bills were laid before the house and read second time:

**SB 20 ON SECOND READING  
(P. King, Hunter, and Baxter - House Sponsors)**

**SB 20**, A bill to be entitled An Act relating to this state's goal for renewable energy.

**SB 20 - STATEMENT OF LEGISLATIVE INTENT**

REPRESENTATIVE SWINFORD: As I've educated myself on this issue this session, I've become concerned about Texas having enough electricity in the future. This bill sets a goal for an additional 3,000 megawatt of renewables during the next 10 years. While ERCOT says Texas may need up to 48,000 megawatt of new power plants. Does this bill go far enough?

REPRESENTATIVE BAXTER: Our committee discussed the planning issue extensively this session. We decided to set the new goals in a measured step while instructing the commission and ERCOT to carefully study the transmission and capacity adequacy situation and report back to us. I expect the legislature will revisit the renewable goal in the future when it has this information.

SWINFORD: There has been a lot of concern expressed about the Section (m) provision of **SB 20**, about what Section (m) will do.

BAXTER: Section (m) is intended to let the legislature know when we have met our goal of 5,880 megawatt, and that satisfaction of that milestone should count the statewide market for renewable energy, not just what is being done by the RPS. That's what Section (m) does, it is a tool that will help the legislature know how we are doing with renewable energy use and decide if we should set higher goals in the future. Section (m) is not intended in any way to reduce renewable energy use in Texas. We still want Texas to reach its renewable energy goals ahead of time, just as we are doing under the current law, **SB 7**.

SWINFORD: Some parties have been concerned that Section (m) could open the door to "double counting" of RECs, leading to conflicts with the Texas Deceptive Trade Practices Act. Can you address that concern?

BAXTER: The legislature is not directing regulators to start allowing consumers to be deceived, and we are not authorizing that RECs be double counted. For example, if retailer A has customers that voluntarily pay to increase renewable energy use in Texas, that will not result in other retailers being able to use proportionately less renewable energy. Section (m) will help us better track renewable energy use, but it is not intended to cap the market for renewable energy in Texas or lessen customer protection standards of the commission that apply to retail renewable energy sales.

SWINFORD: Thank you. With that clarification, I support passage of **SB 20**.

### REMARKS ORDERED PRINTED

Representative Swinford moved to print remarks between Representative Baxter and Representative Swinford.

The motion prevailed.
