We pray that the work we accomplish today reflect that love by using our minds as well as our hearts. May the people we represent be strengthened by our attention to the legislative work we are called to perform. Make us aware of your abiding presence. And Lord, please bring us some rain. These things we pray in the spirit of the way, the truth, and the light. Amen.

(b) The Texas Oil and Gas Commission in conducting the study shall examine the extent to which federal tax law allows for the commission and other regulatory authorities to consider, in computing gas utility rates under Subchapter B, Chapter 104, Utilities Code, the utility's actual federal income tax liability for a federal tax year, including any deductions, credits, or other benefits that may reduce the federal income taxes owed by the utility.

(c) The Texas Oil and Gas Commission in conducting the study shall undertake to develop methods to allow a reasonable fair share of any savings a gas utility accrues from filing for federal income tax purposes a consolidated or joint return to be considered by the commission or another regulatory authority in computing gas utility rates under Subchapter B, Chapter 104, Utilities Code.

(d) The Texas Oil and Gas Commission shall report the results of the study conducted under this section to the governor, the lieutenant governor, the Public Utility Commission of Texas, and the speaker of the house of representatives not later than December 1, 2012. Section 106.352, as that section existed on February 18, 2011; and

- (5) the well is located at a site at which the operator employs a noise abatement plan, the implementation of which ensures that noise at the closest point of the school property line resulting from routine and nonroutine operations at the site does not exceed the ambient noise level at that point.

SECTION \_\_\_\_\_. Section 91.020, Natural Resources Code, as added by this Act, applies only to a drilling permit the application for which is filed with the Railroad Commission of Texas or the Texas Oil and Gas Commission on or after the effective date of this Act. A drilling permit the application for which is filed with the Railroad Commission of Texas before the effective date of this Act is subject to the law in effect on the date the application is filed, and that law is continued in effect for that purpose.

Notwithstanding any other law, unless the information is entitled to be withheld as a trade secret under Section 93.052(b) or (c)(4) or 93.053(c), information submitted to the commission under Section 93.052 or 93.053 is public information, and the commission shall post the information on a publicly accessible Internet website.

Sec. 93.052. SERVICE COMPANY DISCLOSURES. (a) A person performing hydraulic fracturing treatments in this state shall disclose to the commission and maintain an updated master list of:

(1) all base fluids to be used by the person during any hydraulic fracturing treatment in this state;

(2) all additives to be used by the person during any hydraulic fracturing treatment in this state; and

(3) all chemical constituents to be used by the person in any hydraulic fracturing treatment in this state and their associated CAS numbers.

(b) Notwithstanding Subsection (a)(3), if the specific identity of any chemical constituent to be used in any hydraulic fracturing treatment in this state is entitled to be withheld as a trade secret pursuant to the criteria provided by 42 U.S.C. Section 11042(a)(2) and Section 93.055 of this chapter, the commission shall protect and hold confidential the identity of the chemical constituent and its associated CAS number. To qualify for trade secret protection, the person performing the hydraulic fracturing treatment must submit to the commission on an approved form a formal claim of entitlement to that protection in the manner required by Section 93.055.

(c) A person performing hydraulic fracturing treatments in this state shall provide to the operator of each well for which the person performs a hydraulic fracturing treatment:

(1) the maximum pump pressure measured at the surface and the type and volume of base fluid used in each stage of the hydraulic fracturing treatment;

(2) a list of all additives used in the hydraulic fracturing fluid, specified by general type, such as acid, biocide, breaker, corrosion inhibitor, crosslinker, demulsifier, friction reducer, gel, iron control, oxygen scavenger, pH adjusting agent, proppant, scale inhibitor, and surfactant;

(3) for each additive type listed under Subdivision (2), the specific name of the additive used and the actual rate or concentration of each additive, expressed as pounds per thousand gallons or gallons per thousand gallons and expressed as a percentage by volume of the total hydraulic fracturing fluid used;

(4) a list of all the chemical constituents used in the hydraulic fracturing fluid and their associated CAS numbers, except to the extent that the specific identity of any chemical constituent is entitled to be withheld as a trade secret as provided by Subsection (b); and

(5) for each chemical constituent identified under Subdivision (4), the actual rate or concentration of each chemical, expressed as pounds per thousand gallons or gallons per thousand gallons and expressed as a percentage by volume of the total hydraulic fracturing fluid used.

(d) Subsections (b) and (c)(4) do not authorize a person to withhold information that federal or state law, including this section, requires to be provided to any health care professional who needs the information for diagnostic or treatment purposes. A person performing a hydraulic fracturing treatment shall provide directly to a health care professional, immediately on request, all information required by the health care professional, including the percent by volume of the chemical constituents of the hydraulic fracturing fluid and their associated CAS numbers. In a case that is not a medical emergency, the health care professional must provide the person performing the hydraulic fracturing treatment a written statement of need for the information before the person is entitled to receive the information. In a medical emergency, the health care professional must provide the person performing the hydraulic fracturing treatment a written statement of need for the information as soon as circumstances permit.

(e) A health care professional to whom information is disclosed under Subsection (d) shall hold the information confidential, except that the health care professional may, for diagnostic or treatment purposes, disclose information provided under that subsection to another health care professional, a laboratory, or a third-party testing firm. A health care professional, laboratory, or third-party testing firm to which information is disclosed by another health care professional under this subsection shall hold the information confidential.

Sec. 93.053. OPERATOR DISCLOSURES. (a) Following the completion of a hydraulic fracturing treatment on a well, the operator shall include in the well completion report, on a form approved by the commission:

(1) the maximum pump pressure measured at the surface and the type and volume of base fluid used in each stage of the hydraulic fracturing treatment;

(2) a list of all additives used in the hydraulic fracturing treatment, specified by general type, such as acid, biocide, breaker, corrosion inhibitor, crosslinker, demulsifier, friction reducer, gel, iron control, oxygen scavenger, pH adjusting agent, proppant, scale inhibitor, and surfactant;

(3) for each additive type listed under Subdivision (2), the specific name of the additive used and the actual rate or concentration of each additive, expressed as pounds per thousand gallons or gallons per thousand gallons and expressed as a percentage by volume of the total hydraulic fracturing fluid used;

(4) the information provided under Sections 93.052(c)(4) and (5) to the operator by the person who performed the hydraulic fracturing treatment; and

(5) if the operator caused any additives to be used during the hydraulic fracturing treatment that are not required to be disclosed under Section 93.052(c) to the operator by the person who performed the hydraulic fracturing treatment:

(A) a list of the additives used; and

(B) for each additive listed, the chemical constituents of the additive and their associated CAS numbers and the actual rate or concentration of each additive or chemical, expressed in the manner provided by Section 93.052(c).

(b) The operator may supply field service company tickets, excluding pricing information, and reports regarding the hydraulic fracturing treatment, as used in the normal course of business, to satisfy some or all of the requirements of Subsection (a).

(c) Notwithstanding Subsection (a)(5), if the specific identity of a chemical constituent contained in an additive is entitled to be withheld as a trade secret pursuant to the criteria provided by 42 U.S.C. Section 11042(a)(2) and Section 93.055 of this chapter, the commission shall protect and hold confidential the identity of the chemical constituent and its associated CAS number. To qualify for trade secret protection, the operator must submit to the commission on an approved form a formal claim of entitlement to that protection in the manner required by Section 93.055.

(d) Subsection (c) does not authorize an operator to withhold information that federal or state law, including this section, requires to be provided to any health care professional who needs the information for diagnostic or treatment purposes. An operator shall provide directly to a health care professional, immediately on request, all information required by the health care professional, including the percent by volume of the chemical constituents of the hydraulic fracturing fluid and their associated CAS numbers. In a case that is not a medical emergency, the health care professional must provide the operator a written statement of need for the information before the person is entitled to receive the information. In a medical emergency, the health care professional must provide the operator a written statement of need for the information as soon as circumstances permit.

(e) A health care professional to whom information is disclosed under Subsection (d) shall hold the information confidential, except that the health care professional may, for diagnostic or treatment purposes, disclose information provided under that subsection to another health care professional, a laboratory, or a third-party testing firm. A health care professional, laboratory, or third-party testing firm to which information is disclosed by another health care professional under this subsection shall hold the information confidential.

Sec. 93.054. USE OF SERVICES OF NONCOMPLYING SERVICE COMPANY PROHIBITED. An operator may not use the services of another person in performing a hydraulic fracturing treatment in this state unless the other person is in compliance with the requirements of Section 93.052.

Sec. 93.055. TRADE SECRET PROTECTION. (a) A claim of entitlement to trade secret protection made under Section 93.052(b) or (c)(4) or 93.053(c) must include substantiating facts in the form of the information required by 40 C.F.R. Section 350.7(a). If requested by the trade secret claimant, the commission shall treat any such substantiating facts as confidential and may not disclose them to any third party or the public for any purpose. Until a final determination that the information is not entitled to trade secret protection is made under this section, the commission shall treat the information implicated by the claim of trade secret entitlement as a confidential trade secret, and the information is not subject to disclosure under Chapter 552, Government Code.

(b) The commission shall determine a claim of entitlement to trade secret protection made under Section 93.052(b) or (c)(4) or 93.053(c) to be sufficient if the information set forth in the claim supports all the conclusions set forth in 40 C.F.R. Section 350.13(a) and the supporting information is true. In making a determination as to a claim, the commission may require the trade secret claimant to submit additional supplemental information if the information is necessary for the commission to make its determination under this section. If requested by the trade secret claimant, the commission shall treat any supplemental information provided as confidential and may not disclose the information to any third party or the public for any purpose.

(c) If the commission determines a claim of entitlement to trade secret protection to be insufficient, the commission shall notify the trade secret claimant in writing of the determination by certified mail. Not later than the 15th day after the date the trade secret claimant receives notice of the determination, the claimant may request another review of the claim. The trade secret claimant must show good cause for the additional review. What constitutes good cause for purposes of this subsection is solely within the reasonable discretion of the commission and may include the availability of new supporting information or a good faith error or omission on the part of the trade secret claimant in the original claim. Not later than the 30th day after the date the commission receives the request, the commission shall provide written notice to the trade secret claimant of the commission's acceptance or rejection of the request. If a trade secret claimant makes a request for review under this subsection, the commission shall treat the information implicated by the claim of trade secret entitlement as a confidential trade secret until the commission makes a determination with regard

to the review request. If the commission rejects the review request, the commission shall continue to treat the information as a confidential trade secret until the earlier of the 30th day after the date the trade secret claimant receives notice that the commission has rejected the review request or the date the claimant withdraws the disclosure under Subsection (e).

(d) Not later than the 30th day after the date the trade secret claimant receives notice from the commission that the commission has rejected the claim of entitlement to trade secret protection, the claimant may appeal the determination by filing a petition in a district court of Travis County. If a trade secret claimant files an appeal under this subsection, the commission shall treat the information implicated by the claim of trade secret entitlement as a confidential trade secret until the appeal is resolved. If the resolution of the appeal affirms the commission's determination of the insufficiency of the claim, the commission shall continue to treat the information as a confidential trade secret until the earlier of the 30th day after the date the trade secret claimant receives notice that the appeal has been resolved or the date the claimant withdraws the disclosure under Subsection (e).

(e) Not later than the 30th day after the date the trade secret claimant receives notification under Subsection (c) that the commission has rejected the claim of entitlement to trade secret protection or the date a final judgment affirming the commission's determination of the insufficiency of the claim is entered under Subsection (d), as applicable, and only to the extent that the relevant chemical constituent has not been used by or for the trade secret claimant in any hydraulic fracturing treatment in this state, the trade secret claimant may formally withdraw the disclosure of a chemical constituent by notifying the commission of its intent to withdraw the disclosure. If the trade secret claimant withdraws the disclosure of a chemical constituent, the commission shall protect and hold confidential the identity of the chemical constituent and any corresponding CAS number, and the information is not subject to disclosure under Chapter 552, Government Code. After the withdrawal, the chemical constituent may not be used by or for the trade secret claimant in any hydraulic fracturing treatment in this state unless the trade secret claimant satisfies the requirements of this chapter relating to the disclosure of information regarding the chemical constituent.

(f) Notwithstanding any other provision of this section, the commission may:

(1) disclose information otherwise subject to trade secret protection under this section to a third-party testing firm in connection with the investigation of a claim of contamination of surface water or groundwater if the firm agrees in writing to keep the information confidential; and

(2) use the results of a test conducted by a third-party testing firm in connection with an investigation described by Subdivision (1) in any manner the commission considers necessary to protect public health and the environment.

SUBCHAPTER C. USE OF TRACER SUBSTANCES IN HYDRAULIC  
FRACTURING TREATMENTS

Sec. 93.101. HYDRAULIC FRACTURING FLUID TRACER. (a) The commission shall adopt rules requiring a person who performs a hydraulic fracturing treatment on a well to include a tracer substance in the base stimulation fluid used to perform the treatment.

(b) Rules adopted under this section may specify the type of tracer substance a person is required to use in performing a hydraulic fracturing treatment, such as an isotope tracer or a color tracer, provided that:

(1) the tracer substance is traceable to a specific person after the tracer substance is used in a hydraulic fracturing treatment; and

(2) the commission has determined that the use of the tracer substance in a hydraulic fracturing treatment will not endanger the public health.

[Sections 93.102-93.150 reserved for expansion]

SUBCHAPTER D. PROTECTION OF GROUNDWATER AND SURFACE  
WATER

Sec. 93.151. RULES. The commission shall adopt rules concerning hydraulic fracturing treatments that ensure the protection of groundwater and surface water.

SECTION \_\_\_\_\_. Chapter 93, Natural Resources Code, as added by this Act, applies only to a hydraulic fracturing treatment performed on a well for which an initial drilling permit is issued on or after the effective date of this Act. A hydraulic fracturing treatment performed on a well for which an initial drilling permit is issued before the effective date of this Act is governed by the law as it existed immediately before the effective date of this Act, and that law is continued in effect for that purpose.

SECTION \_\_\_\_\_. The Texas Oil and Gas Commission shall adopt rules under Chapter 93, Natural Resources Code, as added by this Act, not later than February 1, 2012.

**HB 150 - REMARKS**

REPRESENTATIVE CAIN: Mr. Speaker, members, I rise in opposition to **HB 150**. I approached redistricting with a heartfelt desire to create a fair and legal map that protects incumbents, that preserves core districts and communities of interest. The chairman and the committee no doubt did a lot of hard work to draw this map. I first saw my map when the full map was published. I was paired with my good friend and conservative colleague, Dan Flynn. My first reaction was at least there will be a conservative in my district; but when I looked harder at the map, I grew very concerned about Texas.

It's a monumental event for legislators to be able to draw districts. With that honor comes a high level of discomfort. As legislators responsible for these decisions, we have to tell some of our roommates, and our committee mates, and our desk mates, and our friends, "You may not be coming back to this house." That process is hard. This map made that harder and unnecessarily painful. There were too many unnecessary pairings, and of those who weren't paired, there were over a dozen districts, democrats and republicans alike, that were so eviscerated that incumbents were running in virtually a new district. There were too many unnecessary open seats. There were concerns over fractured core districts and breaking up communities of interest. The map was riddled with problems.

So, I and several other members went to work on another map to correct some of those problems. We encouraged members to participate. We have tried to accommodate every request. We published the Nixon map and then as the final Cain map. I'd like to believe that the presence of our map was a catalyst for some of the good amendments that were accepted yesterday. The Solomons map got better in Houston, West Texas, and in other areas. East Texas representatives tried to compromise and fix East Texas, and you heard last night why we could not get that done. East Texas representatives had virtually no input into the districts that were drawn in East Texas. It's no wonder six of the 10 republicans that voted against this bill were from Northeast Texas. So East Texas is left with almost every core district being deconstructed. My district alone was divided into four districts. Another district, relatively compact, was stretched over hundreds of miles. Communities of interest were fractured. This map simply does not represent the views of the voters of Northeast Texas, and members, in my humble opinion, this map does not in the end represent the interest of all Texans.

So I ask you, if you voted last night against **HB 150**, I ask you to vote against it again. And if you voted for it because of timidity, intimidation, or any other wrong reason, I ask you to reconsider your vote and vote against it. And if you voted for it because you had a reasonably good district, I ask you to reconsider your vote. I ask you to remember why you came to the house in the first place—to do the right thing, to do the honorable thing by the people of Texas. I ask you to think about what is in the best interest of Texans who we represent. We can do better for Texans, there can be a better map, much better. Please vote no with me on **HB 150**.

### REMARKS ORDERED PRINTED

Representative Christian moved to print remarks by Representative Cain.

The motion prevailed.

### Amendment No. 3 - Vote Reconsidered

Representative Raymond moved to reconsider the vote by which Amendment No. 3 was adopted.

The motion to reconsider prevailed.

Amendment No. 3 was withdrawn.

When Record No. 596 was taken, I was temporarily out of the house chamber. I would have voted yes.

Beck

I was shown voting yes on Record No. 596. I intended to vote no.

Lozano

### REASON FOR VOTE

After dozens of calls from HD-43 and Jim Wells County urging me to vote for my new district in **HB 150**, I was compelled to vote for **HB 150** in order to fulfill the desires of those who would reside in the newly created HD-43. Since I grew up in and have a business with nearly 20 employees in Jim Wells County, I am indebted to the people of Jim Wells and have a sincere desire to serve them in the legislature. Jim Wells County gave me a K-12 education and my upbringing.

I do, however, believe that outside of my newly created district, there are other house district lines drawn which violate the U.S. Constitution and the Texas Constitution, including many provisions of the Voting Rights Act, and that **HB 150** is, therefore, in violation of the law as it permits to minority rights and representation. The map as a whole contains districts that are subject to an objection during the preclearance process by the U.S. Department of Justice or a three judge panel of the U.S. District Court for the District of Columbia. Therefore, in no way should my vote be considered a waiver of these very serious concerns and objections.
