REASONS FOR VOTE

Representative Hopper submitted the following reason for vote to be printed in the journal:

While I appreciate the stated intent of this bill, I have serious concerns about its language. Specifically, the phrase "substantial impairment of a major bodily function" is overly broad and subjective and could be used to justify abortions in scenarios that are not in line with our expectations. This bill will likely lead to a future scenario where more abortions are performed in Texas, and for this reason I voted no on **SB 31**.

Representative Pierson submitted the following reason for vote to be printed in the journal:

I firmly support and believe in the need to allow physicians to exercise reasonable medical judgment when providing the best care possible for pregnant women and preborn children. I also appreciate how this bill provides some clarity for providers who were being fed misinformation surrounding our current law.

However, with my background in health care administration, I have serious concerns about the language used in this bill—specifically the phrase "substantial impairment of a major bodily function" without specific diagnostic guidelines or criteria to accompany the qualifying diagnoses. In clinical practice, that phrase is broad and open to interpretation, creating a significant loophole that could be used to justify abortions in cases that may not align with the bill's stated intent.

I am concerned that the bill opens the door for the misuse of medical diagnostics—where certain conditions could be exaggerated or manipulated to meet the threshold of "substantial impairment," even when no such risk exists under normal, unaltered circumstances.

For these reasons, I voted no on **SB 31**. While I support the efforts along with intent of the legislation, I believe this will ultimately lead to the loss of more innocent lives.
